ABOUT ME

I have 11 months of experience at **Outrise technologies private limited**., supporting **Fonicom Limited**., where I worked 6 months on Odoo ERP and 5 months on web development. My Odoo work included customizing modules, creating reports, automating workflows, and setting access rules. This combined experience helped me deliver efficient and scalable business solutions.

WORK EXPERIENCE

Outrise technologies pvt ltd. | Jan-2024 - current 2025
Web developer trainee
Jan 2025 – Present (11 months)

- Odoo Development (6 months):
  - Customized core modules (HR, Employee, Sales, Accounting) to match client requirements.
  - Designed and implemented automated workflows, server actions, and custom email templates (Jinja).
  - Developed custom QWeb reports and PDF templates for business use.
  - Configured record rules and access controls to ensure secure employee data handling.
  - Assisted in client ERP deployment and troubleshooting issues in production.
- Web Development (5 months):
  - Built and maintained web sites using bootstrap, JavaScript, HTML, and CSS.
  - Collaborated with cross-functional teams to deliver responsive and user-friendly interfaces.
